

Dipl.-Ing. Dipl.-Ing. Architektin Christiane Ditzen
Teamleader Building Physics and Sustainability,
LEED AP BD+C

To expand our team we are looking for an **Employee in the field of Certification (DGNB/BNB/LEED) (m/f/x)**

Location: Stuttgart

What we offer

- The chance to play an active part in planning a sustainably designed environment
- Challenging assignments in an office with a team-based, interdisciplinary structure
- A permanent contract with long-term future prospects
- Opportunities for personal development and advancement within a global network
- Climate-friendly transport incentives (e.g. company bicycles and travel tickets)
- An office in an attractive location with excellent public transport links
- Contribution to the pension plan, sporting activities and several annual team events

Your responsibilities

- Holistic advice on sustainability in various disciplines (ecology, energy, life cycle considerations, materials and building physics)
- Independent supervision and technical coordination of building certification according to DGNB, BNB and LEED
- Preparation of verifications and concepts within the scope of building certification
- Interdisciplinary cooperation with the in-house departments of technical building equipment, structural and façade planning departments

Your profile

- You'll have successfully completed your education in the field of architecture, civil engineering, building physics, environmental engineering or comparable
- You have experience in the application of building certification systems, ideally as an accredited DGNB consultant/auditor, Sustainable Building Coordinator or LEED AP
- You have an interdisciplinary understanding for involved planning disciplines
- You have in-depth knowledge in the field of life cycle assessment of buildings and calculation of life cycle costs
- You have knowledge in the analysis/solving of building physics issues and in the field of thermal building simulation and daylighting
- You have a very good command of German and English
- You're ready to take on responsibility and play an active role

Werner Sobek is internationally synonymous with engineering, design, and sustainability. Our company is home to more than 400 employees and is represented on several continents. Our work is renowned for exceptional design based on outstanding engineering and integral concepts that minimise the consumption of energy and materials.

We look forward to receiving your application along with an indication of your salary expectations and your preferred starting date. If you have any questions, please do not hesitate to get in touch.
