

M.Sc. Shpend Buzhala  
Building Technology

## To expand our team we are looking for a **Project Engineer and/or Planner HVAC (m/f/x)**

Location: Stuttgart

### What we offer

- The chance to play an active part in planning a sustainably designed environment
- Challenging assignments in an office with a team-based, interdisciplinary structure
- A permanent contract with long-term future prospects
- Opportunities for personal development and advancement within a global network
- Climate-friendly transport incentives (e.g. company bicycles and travel tickets)
- An office in an attractive location with excellent public transport links
- Contribution to the pension plan, sporting activities and several annual team events

### Your responsibilities

- Managing projects across all service phases (in particular 1-8) for HVAC
- Conception of innovative and sustainable concepts
- Close cooperation with the architecture and technical building services departments
- Further development of the field of HVAC

### Your profile

- You have a master/technician for HVAC or successfully completed your education as a supply engineer
- You're a team player with relevant professional experience
- You have strong computer skills (Microsoft 365 and trade specific planning software)
- Your way of working is independent and reliable
- You have a very good command of German and English
- You're ready to take on responsibility and play an active role

Werner Sobek is internationally synonymous with engineering, design, and sustainability. Our company is home to more than 400 employees and is represented on several continents. Our work is renowned for exceptional design based on outstanding engineering and integral concepts that minimise the consumption of energy and materials.

We look forward to receiving your application along with an indication of your salary expectations and your preferred starting date. If you have any questions, please do not hesitate to get in touch.
