

Moritz Brombacher, M.Sc.
Project Manager Building Physics and
Sustainability

To expand our team we are looking for **Sustainability Consultants in the field of Life Cycle Assessment (m/f/x)**

Location: Germany (Berlin, Hamburg, Frankfurt, Stuttgart)

What we offer

- The chance to play an active part in planning a sustainably designed environment
- Challenging assignments in an office with a team-based, interdisciplinary structure
- A permanent contract with long-term future prospects
- Opportunities for personal development and advancement within a global network
- Climate-friendly transport incentives (e.g. company bicycles)
- An office in an attractive location with excellent public transport links
- Contribution to the pension plan and several annual team events

Your responsibilities

- Carrying out life cycle assessments in all service phases to determine the emissions over the life cycle within the scope of case and variant studies for materials, construction methods and energy concepts
- Advising clients and specialist planners on the ecological optimization of projects
- Carrying out life cycle assessments as part of sustainability certifications (DGNB, LEED, BNB) at various performance levels.
- Close cooperation with various disciplines within our company
- Holistic consulting on sustainability in various disciplines

Your profile

- You've successfully completed your studies in the field of civil engineering, environmental engineering, process engineering, architecture, real estate management or similar
- You're experienced in the field of life cycle assessment and sustainable construction
- You ideally have knowledge in eLCA, OneClickLCA or other LCA tools as well as in the use of Ökobaudat
- You're experienced in preparing reports, studies, and presentations
- You're experienced in the application of certification systems, ideally as an approved DGNB auditor or coordinator of sustainable construction
- You have a very good command of German and English
- You're ready to take on responsibility and play an active role

Werner Sobek is internationally synonymous with engineering, design, and sustainability. Our company is home to more than 400 employees and is represented on several continents. Our work is renowned for exceptional design based on outstanding engineering and integral concepts that minimise the consumption of energy and materials.

We look forward to receiving your application along with an indication of your salary expectations and your preferred starting date. If you have any questions, please do not hesitate to get in touch.
